

Lista delle organizzazioni cinesi iscritte

26 Novembre, Pechino, Settimana Cina-Italia della Scienza, della Tecnologia e dell'Innovazione 2019

Aerospace

Beijing institute of space long march vehicle	Research Centre	Founded in 1971, the Institute is a multi-disciplinary, comprehensive and high-tech master design institute focusing on the aerospace high-tech industry. It is a master's and doctoral degree awarding unit with a post-doctoral mobile station.
Beihang University	University/ Academic Institution/ School	Beihang University has evolved into an open, research-oriented university with focuses on aeronautics, astronautics and informatics. Looking to the future, Beihang aspires to become a world-class research university rooted in China with distinctive advantages in science and technology.

Clean Tech and Environment

Beijing Jinyuanjingkai Limited Liability Company for Sewage Treatment	Company	Beijing Jinyuanjingkai Sewage Treatment Co. Ltd. established in year 2000, is located in Beijing economic and technological development Area (BDA). It is the first professional sewage treatment company in BDA with introduction of foreign investment and employing BOT mode.
China Shield Environmental Development Co.,Ltd	Company	Major activity is an unique patented technology of magnetic solid chelating agent. The company adheres to technological innovation and focuses on environmental heavy metal pollution control.
Beijing Entech Industrialization and Information Technology Ttansfer Company	Company	Beijing Entech Industrialization and Information Technology Ttansfer Company is an international, all-round engineering consulting and project Management company. The main focus is to provide design and project management services in construction technology and clean technology.
Nankai University	University/ Academic Institution/ School	Nankai University is one of the comprehensive and research-oriented universities with the widest range of disciplines. It features a balance between the humanities and the sciences, a solid foundation and a combination of application and creativity. The university has 26 academic colleges.
Haozheng Songyue Fund Management Co.,Ltd	Investors/Bank	Fund management company, focusing on environmental protection, new energy, new materials, high-tech manufacturing and biotechnology investment. Provides management consultation, financial consultation and other third-party services for enterprises.
JakeEngine	Company	Jake Engine has new technology for combustion (4 patents). We design engines and boilers which can prevent pollution and save 80% (engine) and 50% (boiler) costs and fuel.
PinYu Solutions (Beijing) Co., Ltd.	Company	PinYu Solutions (Beijing) Co., Ltd. Is located in Beijing International Technology Transfer Center, Zhongguancun, Haidian District. It is a comprehensive technology transfer company integrating technology service and consulting, technology transfer, technology development and popularization, market researches.
Beijing International Technology Transfer & Innovation Partnership Alliance	Association	Beijing International Technology Transfer & Innovation Partnership Alliance was co-established on Dec 23, 2016, by a group of international technology transfer professionals, like China International Economic Cooperation & Investment Inc., Tsinghua Coway, Office of Science and Technology Development of PKU, Technology Transfer Center of Chinese Academy of Agricultural Sciences, Tus-S&T Service Group, China Pharmaceutical Technology Transfer Center, Beijing Zoom Technology Incubator and other 30 China-based organizations. Led by Beijing Municipal Science & Technology Commission and supported by Beijing Technology Market Association, the Alliance is dedicated to bring international technologies and innovative SMEs to China market as well as send Chinese hi-tech companies and investors to global. The Alliance is focusing on some emerging sectors such as Internet plus, health & medical, environment friendly, new material and agri-tech.

Energy

Haozheng Songyue Fund Management Co.,Ltd	Investors/Bank	Fund management company, focusing on environmental protection, new energy, new materials, high-tech manufacturing and biotechnology investment. At the same time, it provides management consultation, financial consultation and other third-party services for enterprises.
Zhongjing Group	Enterprise	Founded in 2002, Zhongjing Tongchuang Energy Environmental Technology Group Co., Ltd. is a national high-tech enterprise. It is the first batch of energy-saving service companies filed by the National Development and Reform Commission and the Ministry of Industry and Information Technology. The key enterprises are the business support units in the fields of energy conservation and emission reduction and climate change response.
Beijing Shouhang IHW Resources Saving Technology Company Co., Ltd	Enterprise	Beijing Shouhang IHW Resources Saving Technology Company Co., Ltd was established in 2001. Its headquarters are in Beijing and its branch companies are located respectively in Europe, Hong Kong, Shanghai, Tianjin, Xinjiang and other places. Shouhang is a listed company of A-share in Shenzhen Stock Exchanges Center (Stock Code: 002665). Shouhang takes "clean energy and energy-saving/environmental protection" as its development strategy. As a high-tech enterprise, the industries that the Company is involved include R&D, design, manufacturing, construction, operation/maintenance, project investment, EPC and so on for CSP power generating, power plant air cooling system, waste heat power generating, desalination system, industrial waste water zero emission system and CCHP (Combined Cooling, Heating and Power)system.
Beijing Tianzhengyuan Technology Co., Ltd.	Enterprise	Founded in 2007, the company has a registered capital of 1.28 million. It is specialized in design and installation of waste gas, waste water, dust and odor treatment engineering, and technical consulting. The company has Grade B environmental engineering design qualification and environmental pollution control qualification, and some products have obtained national patent certificate. It is a professional environmental protection enterprise integrating engineering design, equipment manufacturing, installation and commissioning and environmental protection acceptance.
Tianjin Optical Electrical Group Co., Ltd.	Enterprise	Tianjin Optical Electrical Group Co., Ltd. (i.e.TOEC) is a High-Tech group company established in 1949. TOEC engages in optical communication, wireless communication, information security, electronic components and technical services. TOEC has 3 bases in Tianjin and 1 base in Shenzhen.
Tsinghua Tongfang Co., Ltd.	Enterprise	Tsinghua Tongfang Co., Ltd. is high-tech listed company founded by Tsinghua University. It sticks to the path of the combination of production, teaching and research by relying on research strength and talent platform of Tsinghua University, and positions itself as a pluralistic and comprehensive science and technology industry incubator which is devoted to the transformation and industrialization of Chinese high-tech achievements.

Environment

Beijing Jinpeng Huanyi Technology Co., Ltd.	Enterprise	Beijing Jinpeng Huanyi Technology Co., Ltd. is affiliated to "Beijing Jinpeng Huanyi Technology Co., Ltd." under the national energy conservation and environmental protection strategy emerging industry, and is an instrument for scientific monitoring of water quality online warning system – "smart water sampler" (also known as water quality automatic sampler).
Tianjin Weiwei Smart Energy Technology Co., Ltd.	Enterprise	Tianjin Weiwei Smart Energy Technology Co., Ltd. is a technology-innovative enterprise controlled by Chaowei Group with a registered capital of 50 million. It focuses on the research and development of photovoltaic and energy storage projects, related products and integrated technologies. Its holding parent company, Chaowei Group, was founded in 1998 and is mainly engaged in the research and development of power and energy storage batteries. It is the world's leading provider of professional green energy solutions.
Beijing Enterprises Water Group Limited	Enterprise	Beijing Enterprises Water Group Limited (BEWG) is a flagship enterprise devoted to the recycling of water resources and the protection of water ecology subordinated to BG, the biggest urban investment, construction and operation service provider in China, ranking 198 among China's top 500 enterprises.
OEIP research institute	Company	Our services include technology transfer services, technology investment consulting services and legal services. We are looking for advanced tech projects and we can help foreign techprojects to land in China, including preferential policy, legal services, financing services.
Foreign Economoc Cooperation Office,Ministry of Environment Protect		The Foreign Economic Cooperation Office (FECO) is an institution affiliated to the Ministry of Environmental Protection of China. It is Beijing Haidian High-Tech Park in high-tech enterprises, software enterprises, focusing on data computing products research and development and promotion.
Beijing North Control Real Estate Co., Ltd.	Company	Beijing North Control Real Estate Co., Ltd. is a wholly-owned subsidiary of Beijing Holding Group Co., Ltd., established on June 8, 2010, with a registered capital of RMB 3.284 billion, covering real estate development, tourism hotel exhibition, medical health, logistics.
Beijing Dongcheng Grid Service Management Center	Research Centre	Beijing Dongcheng Grid Service Management Center core activity is to adopt a new model of urban management .
Beijing Real Vision Technology Co., Ltd.	Company	Beijing True Technology Inc. Founded in 2000, is the leading domestic multimedia video integrated solutions provider.
Beijing Aerospace Intelligent Technology Development Co., Ltd.	Company	Beijing Aerospace Intelligent Technology Development Co., Ltd. major activity are technology development, technical consulting, technical services, technology promotion, technology transfer.
THE N0203 I INSTITUTE OF THE SECOND ACADEMY OF CHINA AEROSPACE SCIENCE & INDUSTRY CORP.	Research Centre	The 203 Institute of China Aerospace Science and Technology Group (the Beijing Institute of RadioMetric And Testing) was founded on December 5, 1957. Space 203 is a basic research institute of national defense technology.
Space Cloud Network Technology Development Co., Ltd.	Company	Space Cloud Network Technology Development Co., Ltd. is a high-tech Internet enterprise jointly funded by the joint unit of China Aerospace Science and Technology Corporation, with the core concept of information exchange, resource sharing, capacity coordination.
National Research Center for Remote Sensing Applied Engineering Technology	Research Centre	Founded in 1952, the 54th Research Institute of China Electronic Science and Technology Corporation is the first telecommunications technology research institute established in New China.

National Research Center for Remote Sensing Applied Engineering Technology	Research Centre	National Research Center for Remote Sensing Applied Engineering Technology: Institute of Remote Sensing Applications, Chinese Academy of Sciences.
Merrill Lynch Data Technology Co., Ltd.	Company	Merrill Lynch Data Technology Co., Ltd. is a well-known leader in industrial big data, focusing on the smart grid, smart manufacturing and other industrial enterprise customers, including big data products and technical services, including big data value-added solutions.
Renmin University of China	University/ Academic Institution/ School	Chinese University of China is a comprehensive research-oriented national key university based on the humanities and social sciences, directly under the Ministry of Education.
China Electronic Science and Technology Corporation Institute of Information Science	Research Centre	China Electronic Science and Technology Group Information Science Research Institute was established on August 27, 2013. The core mission of the Institute of Innovation is to reconstruct the scientific and technological innovation system of the Group.
Henan Intelligent Urban Planning and Construction Professional Committee	Association	Henan Province Industrial Development Research Association Smart Urban Planning and Construction Professional Committee is engaged in intelligent city integrated planning solutions providers.
Tongfang Co., Ltd.	Company	Chinese University of China is a comprehensive research-oriented national key university based on the humanities and social sciences, directly under the Ministry of Education.
Softcom Power Information Technology (Group) Co., Ltd.	Company	Core activities are computer technology development, technical services, technical training, technical advice, computer hardware and software development and wholesale.
Tus-Holdings Co., Ltd.	Incubator/ accelerator/ S&Tpark	TusHoldings is an S&T investment holdings group established in reliance on Tsinghua University focusing on S&T service. It takes full responsibility for developing, constructing, operating and managing TusPark.
Beijing Tengheer AIoT Tech.CO.,LTD.	Company	With the concept of "innovation, connectivity, leadership and sharing" as the development, Beijing Tenghe Smart Energy Technology Co., Ltd. has always been committed to become a leader in the global energy Internet AIoT technology program.
Beijing Jiudian Technology Development Co., Ltd.	Company	Beijing Jiudian Technology Development Co., Ltd. has been engaged in dynamic face, intelligent video monitoring and analysis expert team for many years, has innovative development of leading product core algorithm technology and sustainable R&D capabilities.
Macro Euro China Entrepreneurs Club	International organization	MECEC was established in 1996 (registered in Paris as a non-profit organization) with the support of European Commission (Trade & Invest Committee, Information & Technology Committee, Social & Regional Committee) and Eurochamres. It help and support to transfer EU projects to Chinese government.
Tinghua Tongfang Co.,LTD	Company	It is high-tech listed company founded by Tsinghua University in 1997. Tongfang owns backbone industrial clusters which are closely linked to national economy and people's livelihood, including electronic information product, medical treatment and health.
China VAST Industrial Urban Development Co.,Ltd	Incubator/ accelerator/ S&Tpark	China VAST Industrial Urban Development Company Limited was founded in 1995. The Langfang-based firm is a representative listed company on the main board of the Stock Exchange of Hong Kong and one of the top five domestic industrial real estate enterprises in China.
FineSelected Technology Co.ltd.	Company	FIND Selection is a platform group enterprise of Intelligent Internet of Things, which integrates independent research, development and operation management. It has intelligent science and technology research institute, science and technology company, trade company, enterprise management company.
BDA Interconnection Technology Co.,Ltd	Company	Established in June 2014, Beijing Jingkai Interconnection Technology Co., Ltd. is a wholly-owned subsidiary of Beijing Jingkai Investment and Development Co., Ltd., the Top 20 Operators of China Industrial Park. Providing an integrated solution of wisdom management for the governments and companies.

CULTURE CONSULTANCY SRL	Intermediary Agency	The company is registered in Milan, Italy. The business scope includes urban renewal, smart city, research and consultation, mainly involving smart cities, smart transportation, artificial intelligence, big health, biomedicine, new energy and new materials.
Beijing Tianjian source technology co., Ltd.	Company	Tianjian Technology Group is one of the first specialized enterprises in mainland China to engage in medical information system development, providing software products, system integration and operation services for the construction of digital hospitals and regional health computerization.
ZhongGuanCun Smarter City Information Industry Alliance	Consortium	ZhongGuanCun Smarter City Information Industry Alliance (Z-SCIA) regards the large state-owned enterprises as the driving force, universities like Peking University and Tsinghua University as the support, ZhongGuanCun core smart city enterprises as the cornerstone.

Smart Industry

Beijing New Energy Automotive Technology Innovation Center Co., Ltd.	Company	National New Energy Vehicle Technology Innovation Center (hereinafter as "NEVC") is the second national technology innovation center promoted by Ministry of Science and Technology of the People's Republic of China.
Smart Factory Institute	Company	Based on the concept of "Smart Factory 1.0", Smart Factory Research Institute helps small and medium-sized manufacturing enterprises to transform and upgrade, and build smart factories, including top-level design, strategic planning and status diagnosis services.
Nuctech Limited Company	Company	Nuctech Company Limited (Nuctech) is an advanced security & inspection solution and service supplier in the world. Nuctech provides the most advanced technology, superb products and integrated solutions in the security inspection industry to its customers from 160 countries.
Yuanda Group	Company	Yuanda Enterprise Group(Shen Yang) was founded in 1993, it has gradually developed into a large enterprise groups being supported by seven major business: financial investment, international trade, construction, high-end manufacturing, precision agriculture, and technological environmental industry.
Beijing Institute of Technology	University/ Academic Institution/ School	Beijing Institute of Technology has been one of the key universities in China since the founding of New China and the first batch of universities which has entered the national "211 Project", "985 Project" and the "Top A World-class University".
Beijing TaiGeek Technology Co., Ltd.	Company	Beijing TaiGeek Technology Co., Ltd. was founded in 2016. It is a startup company that provides high-tech technology solutions. Company has already started cooperation with Dr. Pietro Ferraro in CNR-ISASI. The business areas include the development of biological 3D microscopes and so on.
Tsinghua University	University/ Academic Institution/ School	Tsinghua is one of the most prestigious universities in China. Through teaching, research and innovation, Tsinghua is committed to the advancement and well-being of the nation and the world.

Technologies for Cultural Heritage, Creative Industry & Design

Li feng culture technology co., LTD	Other Limited Companies (unlisted)	Guangzhou Lifull culture science and technology co., LTD., founded in 1997, is focused on the cultural creative industries, relying on professional audio ,lighting, video products and integrated control technology, through the concept of culture and the integration of science and technology, the performing arts in culture, cultural facilities, cultural leisure tourism, cultural exhibition, urban cultural landscape areas.
Shanghai qiyu culture development co., LTD	Limited liability company (natural person investment or holding	Shanghai qiyu cultural development co., ltd. was founded in Shanghai in 2013. The company is committed to in-depth development in relevant industries such as IP integration, game development combined transport, and e-sports talent training.
