The fund has invested and supported nearly 70 innovative and entrepreneurial projects, of which 11 are listed in the main board, 4 are listed in the New Three Board, and 3 are queuing for IPO. Many invested enterprises have already become the leading enterprises in their industries, and filled the gaps in those industries in China. Haibang Fund focuses on investment in strategic emerging industries and high quality projects with technological innovation. Its main investment industries include artificial intelligence, biomedicine, Internet of things, new energy, new materials and high-end equipment manufacturing. The fund management company has won many honors. The partners of Haibang Fund include high-level overseas talents who are mainly selected from "1000 Person Plan" of the Organization Department of the Central Committee of the CPC and Zhejiang Province, famous overseas Chinese businessmen, successful returnee entrepreneurs and well-known enterprises, as well as many government guidance funds and industrial funds and famous research institutes. In response to the strategy of "going out", Haibang Fund sets up talent channels abroad. It cooperates with many overseas entrepreneurship competitions and famous venture capital funds, incubators and well-known institutions, which has formed the most attractive platform carrier for overseas high-level talents in Zhejiang.
