

The Open Schools for Open Societies project (OSOS) provides innovative ways to explore the world: not simply to automate processes but to inspire, to engage, and to connect.

The OSOS partners will support your school with:

-  Inspiring projects that schools can implement to become open communities of learning.
-  The OSOS model that enables schools to become Open Schools and redefine their role in their communities
-  The OSOS community of 1000 Open Schools

Are you interested in a more engaging environment for learning, our inspiring projects or our innovation model? Please visit our website at [www.openschools.eu](http://www.openschools.eu) or contact us at [info@openschools.eu](mailto:info@openschools.eu)

The consortium of OSOS partners consists of in total 19 universities, research centers, science centers, schools, policy makers, companies and organisations representing school heads and physics around Europe and beyond! All partners are committed to promote the Open Schools philosophy and support teachers and school heads.

This publication has been funded with support from the European Commission under the Grant Agreement Number 741572.
